SENIOR FRONT-END ENGINEER

ABDULLAH AL FAHAD

Senior Frontend Engineer with 8+ years delivering production web and mobile applications across React, Next.js, Vue, and Nuxt ecosystems. Experienced in real-time systems, AI integrations, and Web3 wallet flows. Proven track record leading cross-border teams and shipping full-featured products end-to-end — from architecture and API integration to component design and deployment. Strong bias toward clean code, performance, and ownership.

EDUCATION

MECHATRONICS ENGINEERING (B.Sc.)

World University of Bangladesh - 2022

EXPERIENCE

SENIOR FRONT-END ENGINEER

IDEEZA - 2025 - Present

IDEEZA PLATFORM

NEXT.JS TYPESCRIPT TAILWIND CSS GENERATIVE AI WEB3
THREE.JS

- Architected the AI-facing frontend for a blockchain platform that converts product ideas into hardware blueprints (circuits, 3D models, code) and secures IP on-chain.
- Owned the full prompt-to-output UX — streaming LLM responses, generation flow, and real-time feedback loops.
- Shipped Web3 wallet integration and NFT marketplace for trading blueprints with the \$IDZ token.
- Collaborated with the Three.js team on interactive 2D/3D viewers and blueprint customization tools.

SENIOR FRONT-END ENGINEER

Revo Interactive - 2024 - 2025

- Delivered multiple client projects in partnership with STEAH Inc. (Japan), a social-tech studio serving healthcare, welfare, and environmental sectors.

ENEOS DRYICE SYSTEM (B2B PORTAL)

NEXT.JS TYPESCRIPT GOLANG GRAPHQL TAILWIND CSS

- Built a secure B2B portal for industrial dry-ice operations — ordering, inventory, real-time status, and reporting.
- Implemented RBAC, session management, and secure API integration across auth and authorization flows.
- Automated the end-to-end fulfillment workflow by integrating logistics, ERP, and monitoring APIs.

EXPERIENCE

SENIOR FRONT-END ENGINEER

🔗 *UMR Labs* - 2023 - 2024

🔗 WEBACCESS

NEXT.JS TYPESCRIPT TAILWIND CSS LARAVEL

- Built a WCAG/ADA-compliant accessibility plugin in vanilla JavaScript — drop-in compatible with any host site.
- Designed reusable Next.js component library and integrated Laravel REST APIs with Next-Auth.

🔗 PINTOE

NEXT.JS TYPESCRIPT REDUX WEBRTC WEBSOCKET TAILWIND CSS

- Delivered real-time audio/video calling and live streaming using WebRTC from scratch.
- Implemented WebSocket-driven live chat and PayPal checkout for premium plan upgrades.

🔗 SENTINEL EP

VUE.JS VUEX TAILWIND CSS LARAVEL

- Architected the Vue.js + Tailwind CSS frontend from scratch and integrated it with a Laravel Blade backend.

SOFTWARE ENGINEER

🔗 *iQuantile* - 2022 - 2023

🔗 QUANTIBLY

VUE.JS VUEX TAILWIND CSS DJANGO

- Led the Vue.js rewrite of a non-profit SaaS platform end-to-end — from planning through production launch.
- Mentored junior engineers through code reviews, pair programming, and architecture decisions.
- Integrated Django REST APIs covering fundraising, financial reporting, and donor engagement modules.

SOFTWARE DEVELOPER

🔗 *Joules Labs* - 2018 - 2022

🔗 CROWDFUNDLY

NEXT.JS VUEX TAILWIND CSS LARAVEL WORDPRESS PLUGIN

- Built a multi-tenant crowdfunding SaaS with Nuxt.js, including an admin panel and reusable component library.
- Shipped a companion WordPress plugin in coordination with the plugin team, extending the SaaS to 1,000+ WP sites.
- Integrated Laravel REST APIs and collaborated with the UI team on design system specs.

WEB DEVELOPER

🔗 *Kodeeo* - 2017 - 2018

- Started my professional career building the company branding site — first exposure to production-grade HTML, SCSS, and JavaScript.
- Collaborated with the PHP/Laravel backend team, picking up API integration patterns and backend fundamentals that still inform how I work with backend engineers today.
- Completed an internship that transitioned into a full role, shipping client-facing pages under real deadlines.

OTHER PROJECTS

🔗 TRADERS CONNECT

NEXT.JS TYPESCRIPT TAILWIND CSS

- Redesigned the full trading-management UI — copy-trading dashboard, performance analytics, and broker comparison.
- Integrated real-time account data and execution flows via updated REST APIs across the frontend.
- Improved page load performance by optimizing component rendering and reducing unnecessary re-fetches.

🔗 AI OR NOT

NEXT.JS TYPESCRIPT AWS AMPLIFY TAILWIND CSS

- Implemented PayPal-based premium subscription flow and resolved critical bugs across the React codebase.

🔗 FLOATPIC

NEXT.JS TYPESCRIPT AWS AMPLIFY

- Delivered feature additions and production bug fixes on a React-based image-sharing platform.

🔗 KEENO

JAVASCRIPT JQUERY SCSS LARAVEL

- Built the eCommerce storefront in HTML/SCSS and converted it into reusable Laravel Blade templates.
- Ensured cross-browser compatibility and pixel-perfect implementation from Figma designs.

OPEN SOURCE & NPM

🔗 @GLITCHLAB/REACT-VIDEO-PLAYER 2025

A modern, feature-rich video player component for React — published to npm under the GlitchLab namespace.

🔗 @GLITCHLAB/VUE-VIDEO-PLAYER 2025

Vue.js port of the GlitchLab video player — same API surface, idiomatic Vue 3 composition.

🔗 VIDEO PLAYER PLAYGROUND 2025

Live demo and playground showcasing both React and Vue video players with configurable props.
